Trinity college of engineering and technology NSS unite on health check-up camp at seminar hall, trinity college of engineering and technology.

Health check-ups are designed not only to detect medical issues, but also to identify risk factors and illnesses before they start to cause problems. Health check-ups aim to not only help the person to prevent illnesses and its complications but also to make changes in the lifestyle for long-term healthy life. Now-a-days even teenagers are also getting heart attacks so to prevent this we have to go for regular health check-ups.

A routine dental check-up is important to ensure that there are no issues with your oral health and to detect any concerns as early as possible. The best way to deal with oral health concerns is through prevention. A routine **dental check-up** allows you to detect potential issues before they worsen and to receive the proper preventive and restorative care.
