### PROGRAMME REPORT

**Name of the Programme:** A Five Days Faculty Development Program on “**Power Quality Analysis And Improvement Program**”.

**Date:** 13-09-2021 to 17-09-2021

#### **Details of the Resource Person:**

- **Name:** Mr. kamani Sadanandam
- **Designation:** Assistant Professor
- **Department:** Electrical & Electronics Engineering
- **Organization:** Mother Theresa College of Engineering & Technology, Peddapalli
- **Email Id:** sadanandam.kamani@gmail.com
- **Contact Number:** 9441454995

**Objective:** Trinity College of Engineering and Technology had successfully organized A Five Days Faculty Development Program on “**Power Quality Analysis And Improvement Program**”. The main objective of the Program is to cover power quality analysis fundamental theory, recent developments and applications.

#### **Topics Covered:**

- Overview of Power Quality Issues, Standards.
- Combined active shunt and series compensation.
- Hybrid active filters.
- Active and reactive power injection using solar.
- Power Quality Issues of Smart Grid.
- Simulation of power converters, shunt and series active power filters.

**Outcome of the Programme:** An open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering the topics related to the theoretical and practical aspects on Power Quality Analysis and Improvement Techniques.

## ABOUT THE INSTITUTE

Trinity College of Engineering Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavour to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. At Trinity learning pushes all boundaries of conventional thought in pursuit understanding science & Technology of in relation to the society.

## ABOUT EEE

Electrical engineering is a field of engineering that generally deals with the study and application of electricity, electronics, and electromagnetism. Electrical engineers deal with the energies from their sources to our homes, factories, offices, hospitals, and schools. It is impossible to visualize the world without electricity. There has been rapid advancement in generation, transmission and distribution technologies, opening up new frontiers.

## ABOUT THE INSTITUTE

Trinity College of Engineering Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavour to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. At Trinity learning pushes all boundaries of conventional thought in pursuit understanding science & Technology of in relation to the society.

## ABOUT MBA

The department offers soft-skills, case-studies, group discussions, expert Professional-Guest & Technical Lectures and Industrial Tours & Visits in addition to their curriculum which in-turn provide, rich professional experience which will be helpful in their professional career and stimulate simulative behaviour in their employment career. The management course has its stand at the helm as any position in the career finally culminates in administration of management. Hence, no specific mention is needed for acquiring additional academic distinction by the technocrats for highly successful career.

## PROGRAMME REPORT

**Name of the Programme:** A five days Faculty Development Program on “Advances in Wireless Communications: Challenges and Solutions”.

**Date:** 07-03-2022 to 11-03-2022

**Details of the Resource Person:**

- **Name:** Mr.P.Drawin
- **Designation:** Assistant Professor
- **Department:** Electronics & Communication Engineering
- **Organization:** Godavari Institute of Engineering and Technology
- **Email Id:** [drawinece@gite.ac.in](mailto:drawinece@gite.ac.in)
- **Contact Number:** 9948388000

**Objective:** Trinity College of Engineering and Technology had successfully organized A Five Days Faculty Development Program on “Advances in Wireless Communications: Challenges and Solutions”. The main objective of the Program is to understand massive MIMO, Wireless Sensor Networks & its applications

**Topics Covered:**

- Spectrum sensing techniques for CR Networks.
- Massive MIMO in 5G Wireless Networks.
- Emerging Techniques in 5G (Millimeter Wave Communication, D2D )
- Non-orthogonal Access Scheme for 5G Technology.
- Multi-channel Cooperative Networking.
- Heterogeneous Network.
- Software Defined Radio.

**Outcome of the Programme:** An open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering recent trends in wireless Communications and provides insight knowledge in research topics with solutions.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

## ABOUT THE INSTITUTE

Trinity College of Engineering Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. At Trinity learning pushes all boundaries of conventional thought in pursuit understanding science & Technology of in relation to the society.

## ABOUT ECE

It has an array of courses for students to choose and study such as power electronics, information technology, electronic hardware and software, automation, robotics and control, communications, radio and television, computer engineering, solid – state devices, microelectronics, VLSI and other circuits & systems used in varying application ranging from simple circuits to sophisticated digital satellite systems

## MAIN OBJECTIVES OF THIS FDP

The main objective of the Program is to understand massive MIMO, Wireless Sensor Networks & its applications

### Topics Covered:

- Spectrum sensing techniques for CR Networks.
- Massive MIMO in 5G Wireless Networks.
- Emerging Techniques in 5G (Millimeter Wave Communication, D2D )
- Non-orthogonal Access Scheme for 5G Technology.
- Multi-channel Cooperative Networking.
- Heterogeneous Network.
- Software Defined Radio.

## REGISTRATION

There is NO Delegation Fee. Maximum Number of participants are allowed.

Confirmation of the participation will be communicated through phone or e-mail. Selection of the participants will be based on First Come First Serve Basis.

The interested candidates are here by requested to send their Registration form or personal details in person or through Email
