## PROGRAMME REPORT

**Name of the Programme:** A Five Days Faculty Development Program on “**RENEWABLE ENERGY SOURCES**”.

**Date:** 12-06-2017 to 16-06-2017

### **Details of the Resource Person:**

- **Name:** Mr.G.Balram
- **Designation:** Assistant Professor
- **Department:** Electrical and Electronics Engineering
- **Organization:** Sree Chaitanya College of Engineering. karimnagar.
- **Email Id:** balramgyadari@gmail.com
- **Contact Number:** 9866042869

**Objective:** Trinity College of Engineering and Technology had successfully organized A Five Days Faculty Development Program on “**RENEWABLE ENERGY SOURCES**”. The main aim is to develop basic understanding of Energy scenario, to identify renewable energy sources and their utilization.

### **Topics Covered:**

- Overview of Renewable Energy Sources, Energy storage systems, MPPT algorithms
- Solar Photovoltaic Technology.
- Solar cells, solar modules, design and installation of solar photo voltaics systems, Wind power plants etc.
- Converter Topologies for solar photovoltaic and wind systems.
- Converter design: Modeling, simulation and hardware development etc.

**Outcome of the Programme:** An open feedback was collected from the faculty members and they convey that the program is to create awareness the significant achievements, prospects. Projections on commercially available renewable systems and as well as challenges of advancement of technology in renewable sector.

## ABOUT THE INSTITUTE

Trinity College of Engineering Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. At Trinity learning pushes all boundaries of conventional thought in pursuit understanding science & Technology of in relation to the society.

## ABOUT EEE

Electrical engineering is a field of engineering that generally deals with the study and application of electricity, electronics, and electromagnetism. Electrical engineers deal with the energies from their sources to our homes, factories, offices, hospitals, and schools. It is impossible to visualize the world without electricity. There has been rapid advancement in generation, transmission and distribution technologies, opening up new frontiers. The department initiated developmental activities in the emerging areas of Renewable energy sources like solar energy, wind energy etc.

## MAIN OBJECTIVES OF THIS FDP

DEPARTMENT OF HUMANITIES AND BASIC SCIENCE

## ABOUT THE INSTITUTE

Trinity College of Engineering Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavour to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. At Trinity learning pushes all boundaries of conventional thought in pursuit understanding science & Technology of in relation to the society.

## ABOUT HBS

Science & Humanities department handles engineers, technologists in the making to become more enlightened intellectually and analytically. It is a cardinal rule that it is difficult to advance by ignoring science and humanities in the days of globalization. It is mandatory on every student's part to realize the true potential of science & humanities and enrich him/her to acquire basic strength for a enviable future. The name itself denotes that it is the foundation of all sciences and elementary understanding of how people think and behave. Educational arena is incomplete without this department.

**Date:** 11-12-2017 to 16-12-2017

**Details of the Resource Person:**

- **Name:** Mr.SK.Sharif
- **Designation:** Associate Professor
- **Department:** Computer Science Engineering
- **Organization:** GIET College of Engineering
- **Email Id:** shariefcse@gmail.com
- **Contact Number:** 9490790137

**Objective:** Trinity College of Engineering and Technology had successfully organized A One Week Faculty Development Program on “**Big Data Analytics and Internet of Things**”. This Faculty Development Program provides practical foundation level training that enables immediate and effective participation in big data and IoT projects. It includes an introduction to big data and the data analytics life cycle to address business challenges that leverage big data.

**Topics Covered:**

- Map-Reduce Programming, Hadoop, SPARK
- R Programming, NoSQL Databases.
- Graph and Social Media Analytics.
- Protocol Stack in IoT, D2D Communication in IoT.
- Experimentation with IoT Devices.
- Python Programming (MQTT, Socket-IoT Protocols).
- Smart IoT Applications.

**Outcome of the Programme:** An open feedback was collected from the faculty members and they convey that the program was extremely helpful for covering the major IoT applications and important issues. Hands-on will be conducted on analytics technology, tools, IoT Devices, including Map Reduce and Hadoop.

### PROGRAMME REPORT

**Name of the Programme:** A Six Days Faculty Development Program on “VLSI Digital Signal Processing”.

**Date:** 12-03-2018 to 16-03-2018

**Details of the Resource Person:**

- **Name:** Mrs.M.Nagarani
- **Designation:** Assistant Professor
- **Department:** Electronics & Communication Engineering
- **Organization:** Vivekananda Institute of Technology & Science, karimnagar.
- **Email Id:** nagaraninalumachu10@gmail.com
- **Contact Number:** 9398627402

**Objective:** Trinity College of Engineering and Technology had successfully organized a six Days Faculty Development Program on “VLSI Digital Signal Processing”. The main objective of the Program is to provide a broad coverage of techniques for designing efficient DSP architectures.

**Topics Covered:**

- VLSI for Health Monitoring Systems.
- VLSI DSP –Logic optimization.
- VLSI for Wireless applications
- VLSI Wireless applications –Case studies.
- Graphical representation of DSP Algorithms
- CORDIC algorithm, parallel CORDIC processing, applications from FFT, DCT, Communications
- Parallel realization of DSP algorithms
- Bit serial, digit serial and word serial architectures
- Bit serial multipliers & design of FIR and IIR filters, examples.

**Outcome of the Programme:** An open feedback was collected from the faculty members and they convey that the program was extremely helpful to understand VLSI design methodology for signal processing systems and familiar with VLSI algorithms and architectures for DSP.

## ABOUT THE INSTITUTE

Trinity College of Engineering Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. At Trinity learning pushes all boundaries of conventional thought in pursuit understanding science & Technology of in relation to the society.

## ABOUT ECE

It has an array of courses for students to choose and study such as power electronics, information technology, electronic hardware and software, automation, robotics and control, communications, radio and television, computer engineering, solid – state devices, microelectronics, VLSI and other circuits & systems used in varying application ranging from simple circuits to sophisticated digital satellite systems.

## MAIN OBJECTIVES OF THIS FDP

The main objective of the Program is to provide a broad coverage of techniques for designing efficient DSP architectures

## TOPICS COVERED

- VLSI for Health Monitoring Systems.
