

ABOUT INSTITUTE:

Trinity College of Engineering & Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. Over the years since it was established, there has been dynamic progress at Trinity in all academic and research activities, and a parallel improvement in facilities and infrastructure, to keep it on par with the best institutions in India.

About the Conference “ETTM-18”

“ETTM -18” aims at creating a national forum primarily for students, graduates, researchers, engineers and technologists to present their research/project work through conference presentation and publishing papers. As a part of the regular academic activities, TCTK organizes Science, Engineering and Management conference for the Faculties, Research Scholars, Post Graduate and Graduate students. It provides an opportunity to showcase their work through oral presentation. Papers are invited in the disciplines of engineering, sciences, business and management.

The Major Objectives of the “ETTM - 18” are:

1. To provide a platform for participants to interact with experts in the field of Science, Engineering and Management
2. To enrich technological and managerial human capital nurtured in a multicultural ambience.
3. To create opportunities and exploit the available resources to benefit industry/society.
